Jiaxiang Jin

jiaxiangjin213@gmail.com | 510-520-8129 | Livermore, CA

I am a second-year Computer Science student at Las Positas College, equipped with a robust skill set in Java, JavaScript, C++, Python, and SQL. My practical experience includes developing a web application using TypeScript, and my coursework has honed my ability to write efficient code and debug complex issues. I am dedicated to continuous learning and eager to contribute meaningfully to a technical role, leveraging both my academic and hands-on experience.

EXPERIENCE

Simply Fondue *Livermore, CA*

Busser *March 2025 - Present*

- Deliver outstanding customer service to enhance dining experiences for guests, contributing to repeat patronage.
- Proactively assist coworkers in their tasks, fostering a spirit of teamwork and operational efficiency.
- Excel in managing multiple responsibilities while maintaining an attentive approach to customer needs.
- Uphold cleanliness and organization within the dining area, ensuring a welcoming environment for guests.
- Strengthened time management skills through managing tasks efficiently in a busy restaurant setting.
- Continuously learned from team members and sought to improve service procedures for better guest satisfaction.

In-N-Out Burger *Livermore, CA*

Associate *December 2022 - May 2025*

- Developed strong communication and interpersonal skills through customer-facing interactions, ensuring customer satisfaction and repeat business.
- Recognized for training new associates and enhancing team performance in a fast-paced environment.
- Efficiently managed multiple responsibilities while maintaining a clean and organized workspace, demonstrating good time management skills.
- Maintained professionalism and composure under pressure, contributing positively to team dynamics.
- Consistently acknowledged for reliability and ability to meet operational goals.
- Engaged in problem-solving tasks to resolve customer issues effectively and swiftly.
- Cultivated a positive atmosphere by collaborating with coworkers and ensuring smooth operational workflows.

EDUCATION

Las Positas College *3000 Campus Hill Dr, Livermore, CA 94551*

Associate's Degree in Computer Science *August 2024 - Present*

- Successfully completed CS1, enhancing programming, problem-solving, and software design skills.
- Completed Calculus I, establishing a strong foundation in mathematics and logical reasoning that supports advanced computing topics.
- Engaged in collaborative projects that fostered teamwork and effective communication skills, essential for future career success.

Granada High School *400 Wall St, Livermore, CA 94550*

High School in Computer Science *August 2020 - June 2024*

- Completed AP Computer Science Principles and AP Computer Science courses, building a strong foundation in programming concepts and algorithmic thinking.
- Gained proficiency in Java, fostering an early interest in computer science and enhancing problem-solving skills.
- Developed analytical skills that prepared me for more advanced coursework and technical challenges in college.

SKILLS

- **Languages:** Mandarin, English, Japanese
- **Other:** Teamwork, Leadership, Java, C++, JavaScript, Python, SQL, TypeScript
